

January 2016

Our best wishes to you all for a Happy and Healthy 2016.

2015 was a very busy time for the Practice in the main due to the extension and the re-fit which took the best part of year to complete. The Team worked in noisy, dusty conditions for what seemed to go on for months and months but we now have a lovely environment to work in.

Thank you for the wonderful comments we have received from you; I heard one young child exclaim as she stepped over the threshold “ I think you have done some decoration here. It looks very nice”. Being step free has brought many a smile to our patients who are wheelchair bound or have difficulty managing steps.

On Sat 19th Dec we had an Open House to wish everyone a Happy Christmas and to say thank you for continuing to support us. On display were photographs of when Colin and myself started the practice in the house and the different stages it has travelled to the present day. Needless to say

We thought you would like to

the staff have hardly aged!!

CONTACT LENSES

Last year Johnson & Johnson launched two new products; Moist for Presbyopia (for those of us who need help with reading) which we continue to have very good results with, and

hear of an unusual experience the Hynes Team had for our Christmas party. Nilpa, one of our optometrists suggested dinner at a restaurant in Clerkenwell called Dans le Noir. Nothing could have prepared us for the 3 hours spent at our table in absolute pitch black darkness - no mobile phones, no luminous watches, not a chink of light in the room. We had to use our sense of touch, hearing and taste to the maximum. As all the menus were a surprise we had to guess what we were eating from the texture in our mouth. Simon who waited on our table has been blind since birth and was simply amazing. We came away very humbled and very thankful for our gift of sight. Not an experience for everyone, but certainly thought provoking if you do do it.

CONTACT LENS TASTER DAY

We had a successful taster day in December with 4 young children and one adult now wearing contact lenses for the first time.

If you are curious about contact

Define the revolutionary contact lens that helps **enhance the natural beauty** of your eyes.

This year they shall be launching another **premium lens Oasys 1 day**, but Hynes Optometrists is privileged to be one of a few practices nationally to trial the lens before launch. If you have dry eyes and would like to try this new lens please speak to us now.

lenses and would like the opportunity to see how they feel in your eyes, call us and make an appointment for the next taster day. And what's more, it is **FREE** to try.

Introducing TOKAI 1.76 the World's thinnest organic lens!

Developed with the discerning customer in mind, this revolutionary material means bespoke frames can be partnered with the very thinnest lenses. It is perfect for higher prescriptions where patients are much more sensitive to the thickness and optical performance of their lenses.

Optometry Giving Sight

Hynes won the Platinum Award for the fourth year running for raising the most money nationally.

Thank you to all our patients whose support of our fundraising events makes us successful.

DATES FOR THE DIARY -

Coffee Morning - **1 March**

Contact Lens Taster Day - children and adults welcome - **5 March**

Lindberg Day - **12 March**
